

# Using

# with your

# OVERDRIVE

# AMAZON KINDLE

## Before you start:

You must have a current **Georgetown County Library card** to use Overdrive. If you don't have a library card, come visit us at any branch to get one.

You'll also need a **pin number**. If you don't have one yet, give us a call at (843) 545-3300 to get one.

## Step One: Entering Overdrive

Log on to the Palmetto Consortium's Overdrive eBook and Audiobook Webpage.

<http://palmetto.lib.overdrive.com>

Log on to your Overdrive account by clicking **Login** at the top of the page.

Enter your library card barcode, which you can find on the back of your library card. Then enter your pin number. Then click **Go**.

## Step Two: Picking Your Books

Time to browse! If an item is available for checkout, **“Add to Cart”** will appear in the tan box in the book description. Just click the button to check the book out.

If a book is not available, you can click on the words **“Join Waiting List.”** Type in your email address, and you will receive an email when the book is available.

Found the books you like? Click on **Proceed to Checkout**. If everything’s right, click **Confirm Checkout**. On the screen that appears, click **Get for Kindle**.

## Step Three: Send to your Kindle

The Amazon browser will now open. Log on to your Amazon account, then click the orange **Get Library Book** button. Now click **Manage Your Kindle**.

A new page will open, where you’ll find the titles you checked out from Overdrive. Click on the **drop-down menu** at the bottom of the title information, and select the device you want to send your book(s) to. The titles will be sent via wireless to your Kindle.

## Step Four: Time to Read!

Check your Kindle to make sure your book has arrived. It may be on the main page or in your archived items. **You’re ready to read!**

After the loan period expires for checked out items, they will no longer open. You can remove the titles from your Kindle by going into your Amazon account and clicking on **Manage Your Kindle**.
